

**Amendment to the Specification**

Amend the specification, page 1, first paragraph

This is a Divisional of Application Serial No.: 10/005,243 filed June 7, 2002, and  
this invention relates to shutters, and in particular to a retaining channel that is concealed from view by being located within a roof overhang soffit that is used for positioning and attaching an upper end of a storm shutter therein, and the concealed retaining channel provides for receiving a decorative trim such as a J-shaped decorative trim, that remains partially visible below the retaining channel.
